Safe Handling of Medication

Develop the knowledge required to safely handle medication

This qualification aims to provide a general understanding of different types of medication and their uses. During this course learners will explore the safe supply, storage and disposal of medications and well as how to accurately record and handle them correctly.

This Level 2 qualification is a fantastic introduction into the safe handling of medication and is ideal for those working within a healthcare setting or looking to work in this industry.

What will I learn?

Upon completion you will achieve a **NCFE Level 2 Certificate in Understanding the Safe Handling of Medication in Health and Social Care**

The qualification includes 4 units:

- Understand Medication and Prescriptions
- Supply, storage and disposal of medication
- Understand the requirements for the safe administration of medication
- Record-keeping and audit processes for medication

Benefits

- Achieve a nationally recognised Level 2 qualification
- Increases awareness of the safe handling of medication within a Health and Social Care setting
- Learn at a time and pace that suits you with the support of a dedicated learning support team

How will I study?

- Online, at your own pace, on your phone, tablet or laptop
- With the support of an expert tutor and learning support team
