

FULL-TIME

GUIDE 2026

Full-Time • T Levels • Apprenticeships

WELCOME

Derwentside College is committed to delivering top-quality education and training to all our learners. We are dedicated to supporting your success every step of the way.

With strong partnerships across hundreds of employers, we will help you secure high quality employment or guide you towards further or higher education opportunities.

The Right Course for you

It is essential you receive advice and guidance before selecting a programme that is right for you. We have ensured every course we offer has clear entry requirements with a selection of progression routes. We are here to help you make the right career choice.

Entry Level

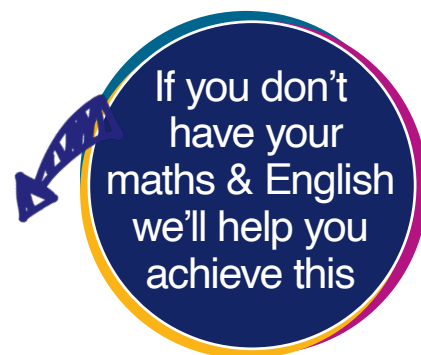

Entry level qualifications can help you boost your confidence, build new skills, increase your knowledge and progress to a Level 1 course. No qualifications are needed.

E

Level 1

To join a Level 1 course you will need GCSEs at Grades 2-1 or an entry level qualification. You can then progress to a Level 2 course in your chosen area of study.

1

Level 2

To join a Level 2 course you will need either a Level 1 qualification or Grade 3s at GCSE which includes English Language and maths. You can then progress to a Level 3 course in your chosen area of study or an Apprenticeship.

2

Level 3

To join a Level 3 course you will need a minimum of 4 GCSEs at Grade 4 or above, which includes English Language, maths or equivalent Level 2 qualification. You can then progress to University, to an Apprenticeship or employment.

3

T Levels

To join a T Level course you will need to be aged 16-19 and will need a minimum of 4 GCSEs at Grade 4 or above, which includes English Language and maths. T Levels provide skills to progress to your chosen career or University.

T

NORTH EAST											
I	N	S	T	I	T	U	T	E	O	F	
T	E	C	H	N	O	L	O	G	Y		

Derwentside College is part of the North East Institute of Technology (NEIoT), a partnership of colleges, universities and employers focused on delivering high-quality technical training. This means our students benefit from industry-aligned courses, modern facilities and strong employer links in sectors like engineering, construction, digital and advanced manufacturing. **All NEIoT courses in this guide will be clearly badged so you can easily spot programmes with these enhanced opportunities.**

T LEVELS

What are T-Levels?

T-levels are government-backed, career focused qualifications for learners aged 16-19.

How long do they last?

T-Levels (like A-levels) take place over 2 years.

What level are they?

T-Levels are technical qualifications equivalent to 3 A Levels.

How will my time be split?

You'll spend 80% of your time in the classroom and 20% on placement with one of our fantastic employers.

How will I be assessed?

You will be assessed in a range of ways, including, written examination, employer set project, group work, observation, activity planners and professional discussions.

What qualification will I gain?

You will gain a nationally recognised certificate showing your overall grade of pass, merit, distinction or distinction*.

What can I progress on to?

You can choose to move onto a:

- Skilled occupation
- Higher or Degree level apprenticeship
- Higher Education at University

KEY BENEFITS...

T-levels are Career Focused Enabling you to:

- Gain industry experience
- Get a nationally recognised qualification
- Earn UCAS points
- Get real knowledge of your chosen career
- Build vital skills, such as teamwork and communication for your future career

During the 2-year programme, you will develop the core knowledge and skills that are needed to enter your chosen occupation.

We offer T-Levels in...

Digital Software Development
Education and Early Years
Building Services Engineering
Engineering Design & Development
Health

VOCATIONAL STUDIES

The Vocational Studies programme is designed for learners with SEN who may not yet feel ready for a full-time vocational course and who would benefit from additional, structured learning support. This course focuses on supporting learners to develop their personal, social, and practical skills, helping to build confidence and independence while preparing for further education, training, or employment.

Throughout the course, learners are supported by a dedicated personal tutor with specialist experience in SEN provision. Individualised support plans are used to ensure learning is adapted to meet each learner's needs, strengths, and aspirations, enabling them to work towards their personal goals and future progression.

There are no formal qualifications required to join this course.
The programme will be designed to meet your learning needs and ensure that you are able to achieve qualifications which will help you to progress.

WHAT COULD I DO AFTER THIS COURSE?

You can progress to the Ace Programme or a Level 1 Study Programme such as:

Beauty Therapy • Catering & Hospitality • Construction • Digital
Education & Early Years • Engineering • Hairdressing • Health & Social Care

EXPERIENCE

Participate in a wide range of enrichment activities and taster sessions

Find out more about our courses

www.derwentside.ac.uk

THE ACE PROGRAMME

The ACE (Aspirational, Careers, Employability) Programme, is a Level 1 full time study programme that gives you the vocational and study skills to enable you to progress to a Level 2 course, an apprenticeship or employment.

You will attend sessions in your chosen vocational areas to gain skills and knowledge of working and training in the relevant subject.

The ACE Programme will enable you to build a personalised learning package, using both your own goals and an assessment of your skills.

Learners will also attend weekly Maths and English sessions to GCSE or Functional skill level.

Vocational areas include:

Beauty Therapy • Care • Catering • Construction • Education & Early Years • Hairdressing • Digital

WHAT COULD I DO AFTER THIS COURSE?

This course will provide you with a broad range of knowledge, understanding and skills and open pathways to higher level courses within the College, various job roles or in preparation for an apprenticeship.

EXPERIENCE

Participate in a wide range of enrichment activities and taster sessions

APPRENTICESHIPS

Apprenticeships offer a unique blend of hands-on work experience and classroom learning, providing you with the opportunity to earn while you learn. Designed to develop both practical skills and theoretical knowledge, our apprenticeships prepare you for a successful career in your chosen industry. With strong employer partnerships and real-world training, you'll gain valuable industry insights and qualifications, all while progressing towards your professional goals. Whether you're looking to start a new career or advance in your current field, an apprenticeship is a great pathway to future success.

We offer Apprenticeships in the following areas:

Bricklaying	Floorlayer
Business Administration	Groundworker
Carpentry and Joinery	Health & Social Care
Construction	Healthcare Support Services
Customer Service	Highways Maintenance
Digital	Manufacturing
Early Years	Roofing
Electrical Installation	Teaching Assistant
Engineering

Sophie Lockeron
T Level in Education and Early Years

“ I really enjoyed my time at St Bede's School, which inspired me to pursue a career working with children and supporting their development. I chose to study a T Level because it offers hands-on experience in a school setting that other courses don't provide. Before enrolling, I attended an open event at Derwentside College and met the tutors, which confirmed that this was the right path for me.

My favourite part of the course is the work placement element. Last year, I was based in a Reception class at Delves Lane Primary School, and this year I'm working with a Year 4 class. These experiences have given me a fantastic insight into how schools operate and how children learn at different stages. It's made me even more determined to become a teacher, and I'm hoping to study Primary Education at the University of Sunderland in September. ”

Jack Carr
T Level Digital

“ After finishing my GCSEs at St Bede's School, I went to another college to study Construction, but I quickly realised it just wasn't for me. I've always been interested in computers and how they work, so I started looking for something that suited me better. When I visited Derwentside College's open event, I met the tutors and got a feel for the course. Everyone was really welcoming, and I could tell straight away it was the right place for me. The tutors are really supportive and always happy to help, which makes a big difference.

I'm not 100% sure what I want to do in the future yet - I've thought about maybe joining the military - but I'm keeping my options open. For now, I'm enjoying learning new digital skills and seeing where it might take me. ”

WHAT OUR STUDENTS SAY...

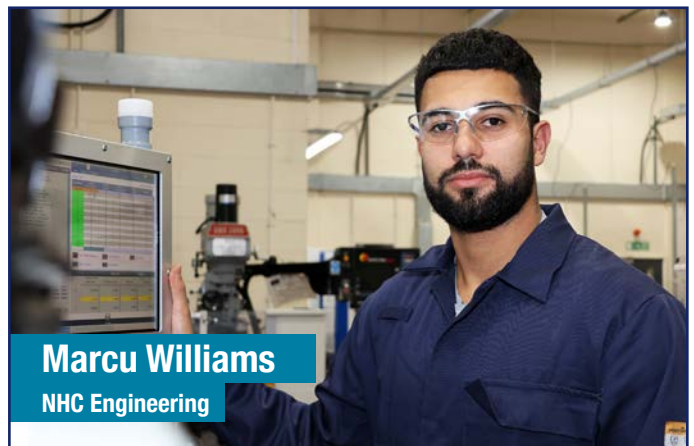

Jamil Jahed
T Level in Design and Development for Mechanical Engineering

“ I completed my Level 2 qualification at another college but wanted to progress further and achieve my Level 3. After researching my options, I chose Derwentside College because it offered the course I was looking for. I had previously tried using CAD (Computer-Aided Design) and really enjoyed it. I believe that CAD is the future of engineering, and this inspired me to pursue the T Level in Design and Development for Mechanical Engineering.

I am really enjoying the course so far. The staff are very supportive and the facilities are industry standard, providing a great environment for learning and development. I am hoping to go to university to study engineering and continue building my skills and knowledge in the field. ”

Marcu Williams
NHC Engineering

“ I've worked for an engineering company in Darlington for over four years. Before joining this company, I worked in a different area of engineering but wanted a role that offered more hands-on experience. My apprenticeship has really supported my development, and I'm now in my second year of an HNC with Derwentside College. The college has been incredibly supportive, and the tutors are extremely knowledgeable. I'm really enjoying the chance to build new skills. After completing my HNC, I hope to continue progressing my career within the mechanical engineering industry. ”

FANTASTIC FACILITIES

We have been busy making the college an even better place to learn, with over £2.2 million investment in state-of-the-art facilities in engineering, digital, new labs, and ward facilities.

LEARNER SUPPORT

College life encourages learners to become more independent and develop the personal organisational skills needed for everyday life. The transition from school to college can be a big step for some learners, but we are here to support you every step of the way.

Our expert tutors are dedicated to giving our learners the best possible start to their choice of career. Our **Student Progression Coordinators** at the college are a dedicated team who provide guidance, support and supervision to enhance the quality of the college experience for students by supporting a range of social and emotional issues which may be impacting on progress and attendance. This includes managing mental health and developing resilience to achieve their academic goals.

EXPERT CAREERS GUIDANCE

Derwentside College is dedicated to providing excellence in career guidance to all learners. The College Careers Advisors are based in the Student Hub. This space is open for students to drop in and speak to careers advisors to plan their career path. If you would like to book a careers appointment, please call **01207 585900** or email **enquiries@derwentside.ac.uk**
